IKRAM SAIDANE

AI & Data Science Student | GenAI | Agentic AI | Machine Learning

ikram.saidane@dauphine.eu | linkedin.com/in/ikram-saidane | ikram-saidane.github.io

PROFILE

Master's student (M2) in **Artificial Intelligence, Data Science and Agentic AI** at **Université Paris Dauphine – PSL**, specializing in **GenAI, RAG, LLMs, Agentic AI and Machine Learning**. Industry experience building a **RAG pipeline evaluated with RAGAS** (Capgemini Engineering), designing **multi-agent systems** and **deploying APIs**.

TECHNICAL SKILLS

GenAI & Agentic AI	RAG, LLaMA 3.x (Ollama), Embeddings (bge-m3, MiniLM), Qdrant, ChromaDB, LangChain, LangGraph, Multi-agent systems, RAGAS evaluation
Machine Learning	Python, SQL, Scikit-learn, XGBoost, LightGBM, CatBoost, Deep Learning (MLP, LSTM), NLP, SHAP/LIME
MLOps & Tools	FastAPI, Docker, GitHub Actions (CI/CD), Railway, Streamlit, Git

PROFESSIONAL EXPERIENCE

Capgemini Engineering – GenAI / RAG Final-Year Internship *Jan. – May 2025*

Python, LangChain, LLaMA 3.1, Ollama, ChromaDB, RAGAS, Streamlit, CRISP-ML

- **End-to-end RAG pipeline** for **document analysis by BMS engineers**, following the **CRISP-ML** methodology: ingestion, **chunking**, **MiniLM** embeddings + **ChromaDB**, retrieval.
- Generation with **LLaMA 3.1 running locally via Ollama** (no cloud API), orchestrated with **LangChain**.
- **RAGAS** evaluation: **Context Precision 0.85**, **Answer Relevancy 0.80**, **Faithfulness 0.78**.
- **Streamlit** demo app; internship graded **Highest Honors (18/20)**.

Dreamtek Consulting – Web Development Internships *2023 – 2024*

- Built a **leave management** and **user roles** module (Symfony, MySQL, Bootstrap).

EDUCATION

Université Paris Dauphine – PSL | *M2 in Artificial Intelligence, Data Science and Agentic AI* *Since 2025*

ISTIC | *Bachelor's Degree in Computer Science – Software Engineering* *2021 – 2025*

Baccalaureate in Experimental Sciences | *With Honors* *2021*

TECHNICAL PROJECTS

Agora – Multi-Agent System for EU Regulatory Monitoring *Ongoing*

- **LangGraph multi-agent** system (Query, Retrieval, Analysis, Citation) on the **EUR-Lex** corpus (AI Act, GDPR, DSA, DMA); RAG with **bge-m3, Qdrant and LLaMA 3.3-70B (Groq)**.
- **RAGAS** evaluation: faithfulness **0.75**, answer relevancy **0.71**, context precision **0.74**, context recall **0.93**.

Churn Prediction API – End-to-End MLOps *June 2026*

- IBM Telco churn (7,043 customers, **AUC 0.840**): **FastAPI** service, **Docker**, **GitHub Actions** CI/CD, deployed on **Railway**.

House Price Prediction – Kaggle Ames Housing *May 2026*

- **Top 1.1%** (58/5,235 teams): feature engineering, ensemble learning (**XGBoost, LightGBM, CatBoost**) and stacking.

PRIMIA – AI / InsurTech Hackathon (Dauphine & EY) *Dec. 2025*

- SaaS platform turning **unstructured PDF financial reports** into usable data with **Gemini LLM**.
- **Risk scoring on 7 financial indicators** with **Random Forest / XGBoost**, delivered through a decision-support interface.

Other projects: hotel booking cancellations (**AUC 0.915**, SHAP/LIME); tourism flow forecasting (RF, MLP, LSTM).

EXTRACURRICULAR ACTIVITIES

DataIn – IT & Training Lead | *co-organizer of the SmartInsurance hackathon* *Since 2025*

Club Member | *Activistic, Multiverse Club, Google Developer Student Club, Maker Labs* *2021 – 2025*
